01. Company Overview

SNK GLOBAL is a leading export service that has been operating globally since 2020. We are a specialized export company, focusing on a wide range of materials, with a particular expertise in aluminum, plastic, and titanium. Our core competency lies in sourcing, exporting, and providing solutions for business seeking these specific materials. With a deep understanding of the unique characteristics and applications of these materials, we are committed to delivering high-quality products that meet diverse needs of our global clientele.

03. Strategic Partnership (Aluminium)

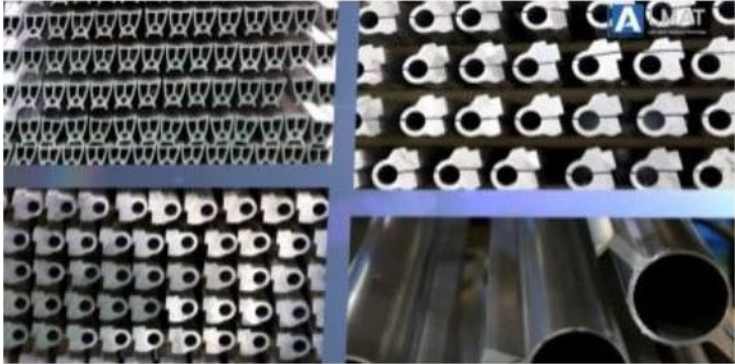

We are a prominent aluminium exporting company based in South Korea, with a primary emphasis on delivering top-tier aluminum products to diverse international markets. Our product portfolio encompasses a wide array of aluminium grades and types, precisely sourced from our cutting edge facilities, renowned for their advanced manufacturing techniques and rigorous quality assurance processes.

Through unwavering dedication to excellence, we have successfully cultivated a significant global footprint. Our premium aluminum products are exported to a multitude of countries, including but not limited to the United States, Germany, Vietnam, Japan, and numerous other regions. This extensive Global network, fortified by strategic alliances, empowers us to provide comprehensive and tailored solutions to clientele spanning the globe.

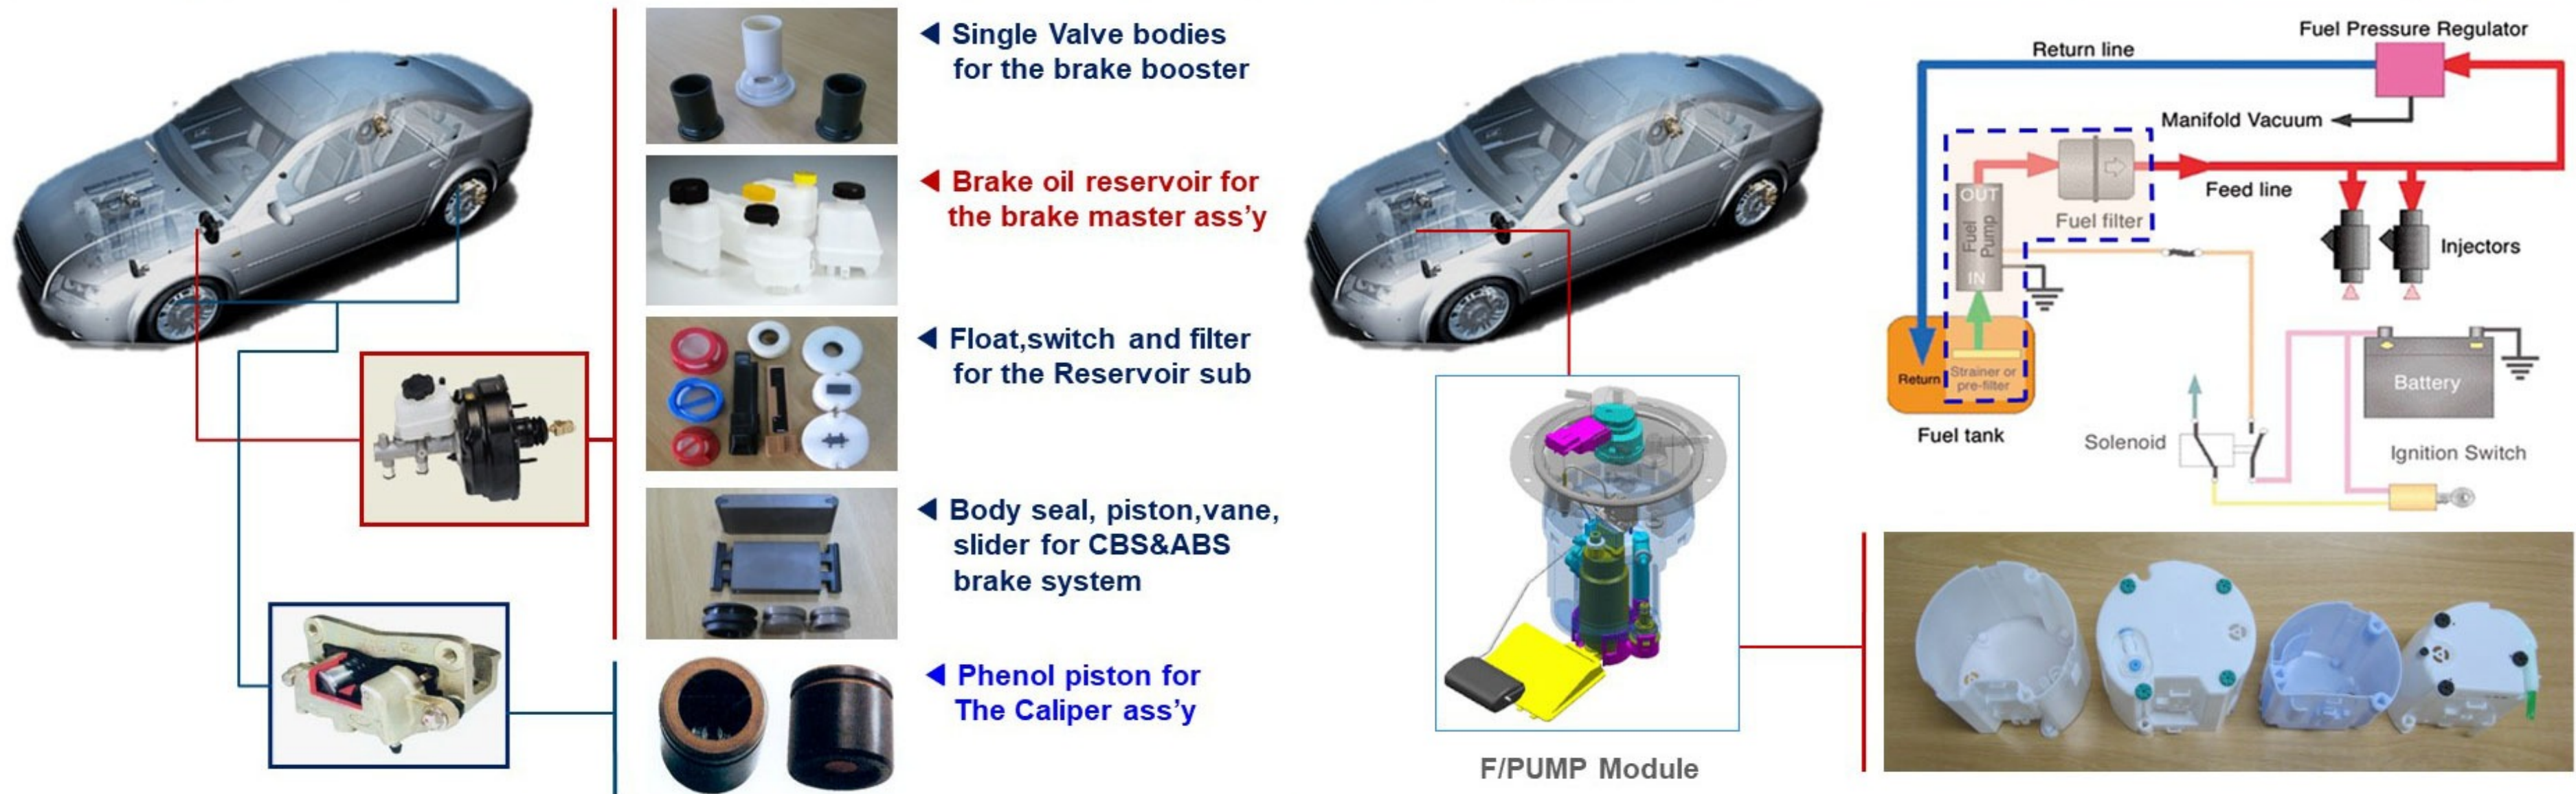

03. Strategic Partnership (Aluminium)

Korean Top techniques for various alloy castings & middle, small size metal forming skills

Products	Material/Shape	Size	Capacity (ton / Year)

 Drawn Products	Round Bar	Ø5 ~ Ø55	12,000 ton
	Hex Bar	Hex6 ~ Hex35	
	Tube	Ø6 ~ Ø150(, >1t	

04. Strategic Partnership (Engineering Plastic)

Plastic Manufacturers: In addition to our aluminium offerings, we have forged strategic partnerships with leading plastic manufactures in Korea. These partnerships allow us to supply essential automotive components, such as brake oil reservoir tanks, float assemblies, and heat staking solutions. By collaborating with these manufacturers, we can offer a comprehensive range of products to our customers, catering to their diverse needs.

04. Strategic Partnership (Engineering Plastic)

HVAC Blower Motor
Next Generation K-Series

Brush Less DC Blower Motor

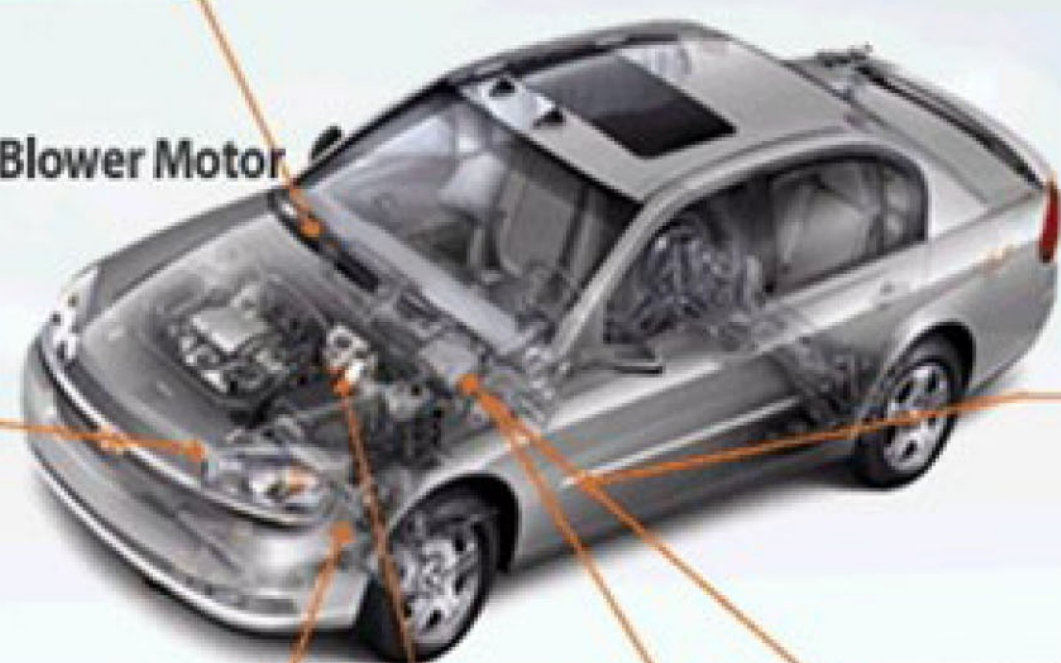

ECF Motor

Anti-Brake System Motor

For Auto-Bicycle

Automated Pedal
Adjust systema

EPS Motor

BLAC EPS Motor

05. Strategic Partnership (Titanium)

Titanium Manufacturers: As part of our commitment to sourcing the highest quality materials for our products, we have established a partnership with a prominent titanium manufacturer based in Germany. This partnership ensures that we have a reliable source for titanium, a critical material in various industries, including aerospace and manufacturing.

05. Strategic Partnership (Titanium)

Medizintechnik / Medical equipment

EZM Chiruline – Sicherheit für Implantate und Instrumente

EZM bietet ein umfassendes Programm an Blankstahl und Profilen für die verschiedensten Einsatzbereiche in der Medizintechnik. Diese reichen vom Implantatmaterial wie Schrauben, Nägel, Knochenplatten, Fixiersysteme, Hüft- und Knieprothesen, Bohr- und Cerclagedrähte über Blankstahl und Profile für chirurgische Instrumente bis hin zu Profilen für die Krankenhausausrüstung.

EZM Chiruline – Safety for implants and instruments

EZM offers a comprehensive line of bright steel and sections for diverse applications in the medical sector. They range from implant material, such as screws, nails, bone plates, fixation systems, artificial hips and knees, drill and cerclage wires, all the way to bright steel and sections for surgical instruments, as well as sections for hospital equipment.

Unsere Produkte werden einer intensiven Kontrolle unterzogen. Nur Stäbe mit fehler- und rückstandsfreien Oberflächen kommen zur Auslieferung. Im Zuge des medizinischen Fortschrittes steigen auch die Anforderungen an die eingesetzten Materialien.

In enger Zusammenarbeit mit unseren Kunden und den Fachverbänden leistet EZM kontinuierlich gezielte Entwicklungsarbeit.

Our products are subjected to rigorous controls. Only bars with a flawless and residue-free surface are shipped. Medical progress also imposes growing demands on the materials used. EZM engages in constant, specific development work in close cooperation with its customers and professional associations.

06. Quality and Compliance

We are dedicated to maintaining the highest standards of quality and compliance throughout our operations. Our close affiliation with LMAT and our partners reflects our commitment to ensuring that our products meet or exceed industry standards. Quality assurance and compliance are at the core of our business values.

QUALITY CONTROL

07. Future Endeavors

As we look to the future, our goal is to continue expanding our product portfolio, enhancing our global reach, and maintaining the highest level of quality in our offerings. We are dedicated to serving our customers with integrity, reliability, and a commitment to excellence.

By leveraging our strong partnership, industry expertise, and dedication to quality SNK GLOBAL is your trusted partner in the global aluminum and materials trade.
